Dear Mr Hudson

We refer to your letter of 17 September 2021.

We choose not to engage in protracted correspondence with you.

All allegations and inferences you make that we have acted in bad faith are denied.

We take pride in our efforts to remain academically credible and to present information that is in the public's best interest, and have done so to date.

We are further immensely proud of the efforts that we have expended to help government and broader society bring this epidemic to an end.

We will continue along this path.

Your sincerely

---

Dr Ryan Noach  
Chief Executive Officer  
Discovery Health
